

# PRACTICAL MANAGEMENT SKILLS COURSE

## OVERVIEW

This very popular course gives managers a practical approach to managing themselves and others effectively.

Participants learn practical approaches to optimise the way they manage people and work.

It helps participants to manage personal effectiveness such as confidence, assertiveness, stress and resilience. This includes developing personal leadership and managing time and priorities. It also involves developing resilience, building confidence as a manager and planning your ongoing development.

The course explains how to manage interpersonal relationships with people. It includes people skills as a leader and communication skills for managers. It also helps managers identify how to apply emotional intelligence at work. These skills are then tested in challenging situations such as managing conflict and leading difficult conversations.

Importantly the course also focuses on how to lead teams and delegate work and manage performance as well as meet challenges you may face in leading the team.

## WHO THIS COURSE IS SUITABLE FOR

This course is designed for anyone working in or moving into a management, supervisor or team leader role. It is suitable for both new and experienced managers.
