

SUPERVISOR / TEAM LEADER TRAINING PROGRAM

"No great manager or leader ever fell from heaven, it's learned not inherited."
Tom Northup

OVERVIEW

FMI's Supervisor / Team Leader Training Program is designed to support new or experienced team leaders and supervisors. This program helps teams to develop an overall approach to manage and lead others using a professional and confident approach. It also assists them to understand the need to align work with organisational objectives so they can make an effective contribution to the organisation.

This practical, work based program is typically delivered over 2 – 4 months. It combines four workshops with Management Application Projects (MAPs). The program content can integrate examples, case studies and resources from your organisation to enhance relevance and practical application.

During the program participants learn participants cover topics such as manage time and work, communication, people management, performance management, emotional intelligence, conflict management and delegation.

The **Management Application Projects (MAPs)** are self-directed projects that support participants to identify management related opportunities, issues, tasks and problems and take the initiative to address them in a timely and cost effective way. Through the application of the project, participants also develop project management and interpersonal skills.

SUPERVISOR / TEAM LEADER TRAINING PROGRAM

WHO THIS PROGRAM IS SUITABLE FOR

This program is designed for new and experienced team leaders and supervisors. Participants often have experience in their role but not have conducted formal training.

SUPERVISOR / TEAM LEADER TRAINING PROGRAM

MANAGEMENT APPLICATION PROJECT (MAP)

FMI's Management Application Project (MAP) is a professional development tool to improve performance of managers and leaders. These self-directed projects are optional free inclusions in FMI's programs. They support participants to identify management related opportunities, issues, tasks and problems and take the initiative to address them in a timely and cost effective way. MAPs deliver measurable benefits to the organisation. The MAP also facilitates mentoring and connection with a network of managers and peers who can provide ideas, feedback and support even after the project has been completed.

Types of Management Application Projects (MAPs)

There are two types of Management Application Projects in the Supervisor / Team Leader Training Program.

SKILLS MAP	PERFORMANCE MAP
Application and practice of management strategies and techniques to improve specific skills.	Focused work each week to change behaviours and improve performance.
4 – 8 hours to complete	8 – 24 hours to complete
Examples <ul style="list-style-type: none"> - Practice delegation with a colleague, seek feedback, review outcomes - Manage a team meeting and implement strategies to help run the meeting more effectively - Hold discussions using professional communication strategies 	Examples <ul style="list-style-type: none"> - Introduce feedback tools to help motivate, support and engage team members - Coach team members to develop skills and raise level of performance - Introduce weekly planning to help prioritise time and tasks

MAP Mentor

During the MAP participants will need to consult with an MAP Mentor at specific stages. The purpose of the Mentor is to:

- Help participants gain feedback and evaluate their plans and progress
- Encourage and motivate participants
- Keep participants accountable
- Develop participants' interpersonal skills
- Develop participants' understanding of project management and effective reporting

The Mentor(s) may be an individual or a group of people who can provide feedback on the MAP. They may be a peer, a manager or another person who has an understanding of the role and can provide suitable feedback. Organisations may wish to nominate MAP Mentors or let participants choose their own.

OPTIONAL PROGRAM ENHANCEMENTS

Coaching

FMI's coaching offers participants personalised support to help them significantly improve their performance as a manager or leader. It is very beneficial for participants who require additional support. To complement group training FMI coaches can help participants:

- Develop knowledge and understanding of concepts
- Develop confidence to apply new approaches to work
- Overcome challenges when making changes to work
- Provide support and guidance for completing Management Application Project

FMI provides both face to face coaching and video or phone based coaching. Methods can be mixed where appropriate.

Video or phone coaching is available as one hour sessions. Face to face coaching is available in blocks of minimum one day for groups of individual coaching, made up of one hour to two hour one on one coaching sessions scheduled over the day.

MAP Presentations and Future Planning Workshop

A useful option to complete the program is to have FMI facilitate a MAP Presentations workshop. This is typically a half day workshop where participants present the outcomes of their MAPs to a panel of managers within the organisation. It provides recognition for the participants of the program and also ensures that the outcomes of the program are shared with both the management team and fellow program participants.

We have found this workshop particularly useful for clients who are keen to embed learnings and improvements to organisational processes from the program into the wider culture of the organisation,

Program Design and Development

FMI is able to tailor or design a bespoke training program specifically for your organisation.

FMI's team has extensive experience designing courses and programs for clients across a range of industries and for a range of purposes.

If a client requires a program to be created that requires extensive design and development over and above 4 hours tailoring FMI can provide a quotation upon request.
